AYLA AQIL

OBJECTIVE:

A motivated and innovative IT student with a strong foundation in mobile application development, front-end web technologies, Canva-based design, and object-oriented programming (OOP). Skilled in creating user-centric applications, crafting intuitive user interfaces, and addressing programming challenges through sound development principles. Eager to secure an internship or entry-level position where I can apply my technical expertise in mobile/web development, Canva design, and WordPress, while continuously enhancing my skill set and contributing to forward-thinking digital projects.
